

Funding Agency	Republic of Finland	
Title	Preparation of Baseline Study for Northwest Jerusalem Villages	
Objectives	<ul style="list-style-type: none"> • To gain in-depth understanding of consumers' perceptions, attitudes, knowledge and practices related to water use (collection, storage, treatment, storage and consumption), by the exploring a variety of factors that influence all population groups (with a focus on low – to middle-income households and in particular those who's ability or willingness-to-pay for water services is low and who have generally accumulated debts. To the service providers or local administrators due to unpaid water bills). • To assess the baseline situation regarding water and sanitation, WASH related health, socioeconomic status, in order to create a basis for monitoring the impact of the project (M&E). • To build a basis for awareness raising of beneficiaries/consumers (what is the risk behavior in water use). • To build a basis for the development of the tariff system, ensure capacity to pay and detect possible needs for subventions. 	
Project Partners	Palestinian Water Authority (PWA)
